Replenish with Chocolate Milk Program
The Replenish with Chocolate Milk Program is on the rise! We are partnering with 16 schools, kindling 1,400 cups and 15,000 student addresses in Idaho and Utah to ramp train and build demand for dairy foods this fall season!

With your support, the recent program expansion added Idaho high school for the first time ever. Based on Dairy, high school program success, we are thrilled to be showing our sportspersons offerings with high school athletes across our region. Along with the expansion, we are thrilled to be deepening our sports nutrition offerings with high school programs.

The Replenish with Chocolate Milk Program is in its third year and is centered on increasing access to nutrient-rich dairy foods celebrating the holidays, but the fun only starts before the holiday season with Valley Wide Cooperative and Lees’s Marketplace Dairy Drive.

While we have numerous highlights for which we are grateful and look forward to what’s ahead, no matter how uncertain. The end of each year is a good time to reflect on those things accomplished on behalf of dairy farmers during the year. We also conduct our annual assessment to focus on our collective mission and we will continue to look for new, innovative ways to do our work. We will face a lot of things would need to change for us to exist in the next several years. Change is how we have fundamentally looked at checkoff at Dairy West. How we proceed will involve constant change to meet the demands of our time so change is always good, it gives you an opportunity to stop, step back and think. I have been doing a lot of that personally and have recently made the decision to step down as Dairy West Chairman, effective at the end of 2021, and Chace Fullmer will take the helm.

NOTE FROM
Steve Ballard, Chairman
November was a busy month and as November board meeting was coming to a close, our Dairy, Business, Community Relations and Visionary young generation. I am grateful for you! And we welcome Debra Easterday as our new chair. We also express our gratitude to Kyle Anderson, Jason Bateman, and Hal Olsen for their service to the dairy community. And we welcome Debra Easterday as our new chair. We also express our gratitude to Kyle Anderson, Jason Bateman, and Hal Olsen for their service to the dairy community. And we welcome Debra Easterday as our new chair. We also express our gratitude to Kyle Anderson, Jason Bateman, and Hal Olsen for their service to the dairy community.

In this newsletter, you will see comments from Chairman Steve Ballard. In addition to embracing change in the work we do, we adapt to changes in board leadership. In this newsletter, you will see comments from Chairman Steve Ballard. In addition to embracing change in the work we do, we adapt to changes in board leadership.

Our work to inspire trust in dairy farming and dairy products will continue in 2022, and in our communities. As I reflect on 2021, I see that what we accomplished on behalf of dairy farmers during the year. We also conduct our annual assessment to focus on our collective mission and we will continue to look for new, innovative ways to do our work.
